

Non-Schengen procedure and facilities at Engadin Airport Plazza Aviatica 2 7503 Samedan

Customs overview

- Non-Schengen border control procedure at Engadin Airport Samedan

Arrival of a Non-Schengen flight

- Falcon 900 from London is taxiing into APRON

Passenger and crew welcome

- Our handling staff welcomes crew and Non-Schengen passengers at the aircraft

Passenger transportation

- Those passengers from Non-Schengen countries will be driven isolated from other travellers to the border control

Arrival at customs

- Passengers from Non-Schengen countries must enter the custom through a separate gate

View of the separate gate

- There is a special entry door for arriving passengers from Non-Schengen origins

At the customs

- Non-Schengen passengers are entering the border police control area

Passport check

- Custom officers are checking passports

SIS-System

- The passport control is supported by SIS- Schengen Information System

Second line control room

- The passport of a passenger from a Non-Schengen origin will be examined in a special control room of the airport border police

Laboratory

- The control room equipment allows detailed technical analyses

Repatriation room

- The documents of this Non-Schengen passenger are proofed to be not valid. Therefore he has to wait in a separate room for his repatriation

Room for asylum seekers

- Among the passengers there was one refugee seeking for asylum in Switzerland. Border police officers accommodate him temporarily in a room at the airport.

Entry to Switzerland

- These happy men passed the border control without any problems and are free to enter Switzerland.

Non-Schengen departure procedure

- Passengers to a Non-Schengen destination must go through exit control procedure at the border police control area

Outbound passenger control

- Border police officer are controlling passengers travel documents

Holding area

- After the passport control, passengers travelling to a Non-Schengen destination must wait in the holding area until they are transferred to their aircraft

Passenger transportation

- Those passengers are driven isolated from the holding area to the airplane

Take off

- The aircraft is finally leaving to a Non-Schengen destination
